United Way of Metropolitan Nashville is fighting for a community where every person—no matter their background, their circumstances or their zip code—has an equal chance at a bright future.

United, we can win this fight if we live as one. If we make our neighbors’ struggles, our struggles. Their victories, our victories.

Together, we can be the hand raisers, the game changers, the problem solvers. We can be the voice for those who are struggling. Those who have been left behind or forgotten.

With your gift, we can bring individuals, businesses, nonprofits and government decision makers together to have the tough conversations, mobilize the resources and make the smart investments that will attack multi-generational poverty at its roots, so that every person and every family in our community thrives.

Because, if united we fight. United We Win.

Join the fight at unitedwaynashville.org.

We must do more to alleviate poverty for our most vulnerable neighbors. Together, we can give everyone in our community a chance at a better life by providing access to free financial counseling services to build assets and increase financial reserves; making sure our young people graduate; offering continuing education and job training so people can get higher paying jobs; and setting people on the path to financial independence.

**Breaking the Cycle of Poverty**

Every child in our community deserves an equal opportunity to learn and succeed. Only one in three Metro Nashville Public Schools students is able to read on grade level by the end of third grade. Together, we can ensure that every child in our community enters kindergarten ready to learn, has the support they need to develop crucial reading skills for success and receives essential social and emotional support from preschool to graduation.

**Giving Kids an Equal Chance**

Many of our most vulnerable neighbors struggle to access quality health care, supportive services and a strong community network. Tennessee ranks 43rd out of 50 states for overall health. Together, we are helping people access quality health care, assisting those suffering from mental health issues and chronic disease, and bringing people together to make connections and build strong, supportive communities.

**Building Strong, Healthy Communities**

Families struggling to make ends meet are often one flat tire or unexpected medical bill away from not being able to pay their rent that month. Together, we are ensuring all of our families have a stable place to call home, food to eat and the support they need in times of crisis; and providing coordinated, wrap-around services to stabilize our families and avoid future crisis.

**Meeting Our Neighbors’ Basic Needs**
